OK WCC EDI Claims Release 3.1 Requirement Tables Version 1.6 – Now Available for Download!

Date: October 9, 2018

OK WCC has posted the EDI Claims Release 3.1 Trading Partner Tables, Version 1.6. The requirements are immediately available for download at https://www.okwccedi.info. You can find the updated tables under the EDI Requirements link on the left-hand side of the page. OK WCC's EDI Requirements page provides an overview of each requirement document and a link to download each document. OKWCC also has the updated Implementation Guide available on the Implementation Guide Page.

Highlight of Changes on Version 1.6:

On each of the tables, the Change Log has a column *OKWCC Implementation Date for Production*.
Please note that some changes with earlier dates have already been implemented to stop rejections.
The Implementation of the OKWCC FROI SROI Requirements Version 1.6 will happen in two stages as follows:

1. Stage 1: Moved to Production on 10/1/18. These changes were current edit changes needed as part of the initial OKWCC Release 3.1 Implementation.
2. Stage 2: To be Implemented to Production on 12/17/18. These changes are edits that were identified as needed to support reporting to OKWCC and to support data quality.

OKWCC has also an updated Implementation Guide available on the Implementation Page of OK WCC EDI website (https://www.okwccedi.info).
