OK WCC FROI/SROI R3 FROI SROI EDI Implementation Announcement

Date: December 29, 2016

The Oklahoma Worker's Compensation Commission (OK WCC) will be implementing electronic reporting of workers' compensation first reports of injury (FROI) and subsequent reports of injury (SROI). Electronic reporting will be required for all trading partners: insurers, self-insured employers, and claim administrators. Mandatory implementation is planned for January 1, 2018.

Electronic reporting will be via Electronic Data Interchange (EDI) transactions using the Claims 3.0 reporting standards adopted by the International Association of Industrial Accident Boards and Commissions (IAIABC). Additional information on the IAIABC EDI transactions for FROI and SROI can be found online at the IAIABC website, <http://www.iaiaabc.org>.

The OK WCC EDI Requirements can be found online at the OK WCC EDI website, <https://okwccedi.info/>.

The OK WCC has contracted with ISO's Workers Compensation Solutions division, to manage its FROI and SROI EDI reporting. ISO will be administering registration of trading partners, testing, data collection and submission of EDI data to the State.

Please complete your Trading Partner Registration today found online at <https://okwccedi.info/register>. If you would like to join the OK WCC EDI Mailing List to receive important announcements via email, please send an email to okwccedi@iso.com.

Additional communications on the transition will be coming soon. If you have any questions about the implementation of EDI FROI and SROI reporting in Oklahoma, please contact the OK WCC EDI Support Team by email at okwccedi@iso.com.

Thank you,

Kim Bailey
Executive Director
