Oklahoma Workers' Compensation Commission (OKWCC) Announcement

Oklahoma EDI Claims Release 3.1, Version 1.5 EDI Implementation Guide and Requirement Tables Are Now Available!

Date: August 10, 2018

OKWCC has posted the Oklahoma EDI Claims Release 3.1, version 1.5 EDI Implementation Guide and Requirement Tables that are immediately available for download at https://okwccedi.info/. You will find the updated guide under "Implementation Guide" and the updated tables under the "EDI Requirements" links on the left-hand side of the page. The changes to each document is located in the "OK Change Log" at the beginning of each document.

OKWCC Trading Partners (Direct Reporters) and EDI Vendors testing for mandatory reporting of IAIABC Claims Release 3.1 began on April 9, 2018 and ends August 24, 2018. The Mandate Date for OKWCC EDI Claims Release 3.1 is September 1, 2018.

Summary of Changes to V1.5. The changes in V1.5 become effective on 8/10/18.

- Changes based on IAIABC tables and instructions. Example: Changing Reportable Change Codes for MTC 02 on the FROI from N to J to be consistent with the SROI 02 codes.
- Changes based on feedback and test results from Trading Partners. Example: Allow additional flexibility for reporting on Legacy Claims based on the recent announcement and changes documented on the V1.5 Event Table (MTC FROI and SROI UR and FROI 00, 04, UI, AU) and Edit Matrix Sequencing Table.
- Changes to correct edit(s) for MTC 02 Changes. Example: If an 'Update' is made to a DN that is part of a 'DN Grouping' change, only require the DN that is changing to be present in the Change Segment.

If you have any questions, please contact the OKWCC EDI Support Team at OKWCCedi@iso.com.
